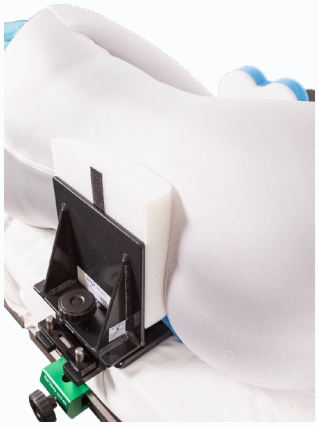
UNIVERSAL

Lateral Positioner®

Universal Lateral Positioner®

Expanded to fit different patient anatomies.

Front View



Rear View

KEY FEATURES

- **Stability and Accuracy**

  Thr ULP provides stable, lateral decubitus positioning and creates a reproducible point of reference for primary and revision hip arthroplasty

- **The Widest Range of Patients**

  Removable and independent adjustable anterior arms allows for more accurate contact with the iliac crests and accommodates bariatric patients

- **Patient Comfort**

  Contour Lumbar Pad conforms to patient anatomy improving stability and pressure distribution

- **Easily Reposition Positioner**

  The 5 Groove Baseplate provides multiple locations for the accessories and increases options to position attachments, not reposition patients
