

Instructions For Use

Exact-Fit® De Mayo Lateral Positioner®

Intended Use/Intended Users: The Exact-Fit[®] De Mayo Lateral Positioner[®] intended use is to position the patient laterally for partial and total hip replacement. Orthopedic surgeons are the intended users.

Target Patient Group: Patient selection depends on the judgment of the surgeon. Surgeons must consider health and size of the patient. There is no weight requirement for the positioner, but each position has a maximum range.

Contraindications: This device is not designed, sold, or intended for use except as indicated.

Warnings/Precautions

- Do not use device in a manner that does not follow these instructions for use.
- Untrained personnel review and understand the IFU
- Incorrect set up follow IFU
- Safety: Always use IMP Patient Protective Pads
- Max number of reuses:
 - Until damaged and unrepairable

Risks:

- Device should not come in direct contact with the patient.
- Highly acidic or basic cleaners may strip anodize.

Complaints and Adverse Events: For complaints and adverse events, contact IMP and the appropriate regulatory authorities for specific country

Symbol Glossary

Symbol	Title	Description	Standard
EC REP	Authorized Representative in the European Community	Indicates the authorized representative in the European Community	ISO 15223-1:2016
LOT	Batch Number	Indicates the manufacturer's batch code so that the batch or lot can be identified	ISO 15223-1:2016
REF	Catalogue number	Indicates the manufacturer's catalogue number so that the medical device can be identified. The manufacturer's catalogue number shall be placed after or below the symbol and adjacent to it	ISO 15223-1:2016
\triangle	Caution	Indicates the need for the user to consult the instructions for use for important cautionary information such as warnings and precautions that cannot be presented on the medical device itself	ISO 15223-1:2016
CE	Complies with European Directives.		
[]i	Consult instructions for use		ISO 15223-1:2016
سا	Date of manufacture	The date must be presented in the following format: YYYY-MM-DD	FDA 21 CFR 801
M	Manufacturer	This symbol shall be accompanied by the name and address of the manufacturer	ISO 15223-1:2016
MD	Medical device		ISO 15223-1:2016

Symbol	Title	Description	Standard
CATEX	Not made with natural rubber latex		Manufacturer defined
SN	Serial Number	The manufacturer's serial number shall be placed after or below the symbol and adjacent to it	ISO 15223-1:2016
UDI	Unique device identifier		ISO 15223-1:2016

Instructions for Use:

Operating Room Set up

1. Attach the Quad® Clamp (CAT# 120) on the OR table at the back of the patient in line with the patient's iliac crest.

Refer to IFU-IMP-0003 for Quad® Clamp set-up instructions

2. Attach the contoured pad to the back plate of the Exact-Fit® positioner for a right or left hip

 Insert the positioner into the Quad® clamp and slide the positioner with the vertical arm aligned with the patient's iliac crest

4. Lock the Quad® Clamp

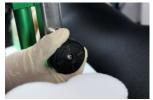

5. Clip on the Anterior Support Pad

Refer to IFU-IMP-0014 for Clip-On Patient Protective Pads

6. Unlock **Knob 1** and move the horizontal bar up vertically until it stops Then tighten **Knob 1**

7. Using **Knob 2**, unlock the horizontal bar and rotate it over the patient and lock into place

8. Unlock **Knob 3** and turn the anterior support arm so that it roughly aligns with the patient's iliac crest and lock into place

9. Unlock **Knob 4** and move the vertical arm toward the patient's head and lock the knob

 Unlock Knob 1 and decrease the height of the horizontal bar until the horizontal arm is 2finger widths above the patient then lock Knob 1

11. Unlock **Knob 5 and 3** then position the anterior support arm to the final location of the ASIS (anterior superior iliac spine) and lock **Knob 5**

12. Pull the Anterior support arm tight to the patient and lock **Knob 3**

 To rotate pelvic tilt more anterior, push the plate with the lumbar pad

14. To rotate the pelvic tilt more posterior, push the button labeled "push to release" and pull the plate back

15. Ensure all knobs are tight

Attaching the Stabilizing Bar

1. Attach the clamp to the side-rail of the OR table on the patient's front side aligning it with the horizontal bar

Insert the vertical stabilizing bar in the clamp and align the hole with the tapered end of the horizontal

3. Load the stabilizing bar by pulling the bar down

4. Lock the stabilizing bar clamp

**Optional: for use with slender patients

Attaching the Adjustable Lateral Support

1. Clip on the Patient Protective Pad® for the adjustable lateral support

2. Attach the rail clamp to the rail in front of the patient at the level of the iliac crest

3. Insert the adjustable lateral support and locate the pad over the Inferior iliac crest then lock the rail clamp knob

Push the horizontal arm with the pad to contact the Iliac Crest and lock Knob 6

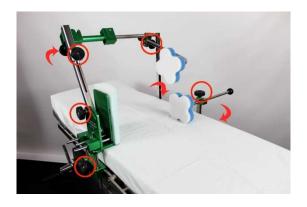

Safety Test

- 1. Ensure all knobs are tight including rail clamps
- 2. Perform a range of motion test on the operable leg prior to draping

Recommended Instructions:

The Family of IMP Hip Positioners and all the positioner's components can be cleaned in the following manner:

1. Components may be disinfected, as a rule with any hospital grade disinfectant to reprocess the components between cases.

These include but are not limited to:

HI-TOR PLUS BEAUCOUP GERMICIDAL DETERGENT SANI MASTER II OR III STARLINE INSTRUMENT DETERGENT.

2. A solution of water and liquid bleach (10 parts water to 1 part bleach) may also be used to clean and disinfect.

Thoroughly clean the components with your disinfectant. A final wipe down with clean water is recommended to be sure that no residue from the disinfectant is left on the components. Completely dry the components and return them to the storage case to protect them from damage.

- 3. IMP recommends that all components for each system be kept together as a kit and a component not be used with another kit.
- 4. All components are tested as a kit before shipping.
