TrenMAX Clamp
(2 attached on each side)

TrenMAX Gel Sheet

(TrenMAX Gel Sheet in use)

KEY FEATURES

- **Prevents Patient Movement**
  The proprietary technology of the adhesive TrenMAX Gel Sheet secures the patient to the OR table in steep Trendelenburg and Reverse Trendelenburg positions

- **No Chest, Shoulder, or Leg Straps Required**
  The TrenMAX Gel Sheet is the only component necessary to secure the patient during the procedure

- **Arm Management With Quick & Easy Access**
  Nursing and Anesthesia have quick & easy access to the arms during the procedure, removing the need for sheet tucking

- **Designed to Prevent Liquid Interference**
  The technology of the adhesive TrenMAX Gel Sheet prevents liquid from absorbing into the material, maintaining the patients' position on the gel sheet

- **Skin Friendly**
  Provides a stablizing surface for most patients, while easily removable from the skin after surgery

TrenMAX Gel Sheet, 4 Green Foam Arm Straps, 4 each TrenMAX Clamps
